PROFESSIONAL SUMMARY

Product design leader with 25+ years of experience across enterprise software, automotive, healthcare, and financial services. Leads multidisciplinary teams and owns product experience across enterprise portfolios and growing companies. Combines people leadership with hands-on design, front-end engineering, and AI product development, from discovery through implementation.

CORE SKILLS

Leadership: Design leadership • Team management • UX strategy • Product strategy
Research and design: User research • Interaction design • Design systems • Accessibility
Delivery: Prototyping • Usability testing • Front-end engineering • AI product development

Technical foundation: JavaScript/TypeScript • React • MUI • Figma
AI engineering: Custom AI implementations • Agent development • AI-assisted workflows

PROFESSIONAL EXPERIENCE

Principal Product Designer | Cox Automotive

Apr 2022–Present

- Manage approximately 10 direct reports and own UX across products representing approximately $500M in annual revenue, including VinSolutions CRM.
- Built the CRM's GenAI platform and helped bring two AI products to market.
- Lead designers, researchers, and UI developers while personally delivering a substantial share of product design and AI engineering work.
- Lead CRM integration with Fullpath's CDP, resolving overlapping functionality in AI messaging and summarization across disparate systems.

Senior User Experience Designer | Healthesystems

Jun 2016–2022

- Led UI/UX design and front-end development for enterprise web and mobile applications serving the workers' compensation industry.
- Combined research, workflow design, and implementation using React, Angular, and Material Design.
- Delivered product improvements associated with 5% growth in platform usage and 3% growth in platform revenue.
- Directed the 2021 corporate website redesign and WordPress rebuild using custom PHP, Oxygen, and purpose-built plugins; oversaw a small development team.

Senior User Experience Designer | Catalina Marketing

Apr 2013–Jun 2016

- Designed application interfaces, user journeys, and mobile experiences informed by user and market research and usability testing.
- Implemented front-end experiences using JavaScript, HTML/CSS, Angular, jQuery, and Bootstrap.

INDEPENDENT CONSULTING

Fractional VP of UX | BagsID

2019–Present | Consulting

- Lead a small team part-time within an approximately 100-person company; own brand, design systems, UI/UX, and front-end development.
- Built the baggage scanning application UI and wrote most application UI code before AI-assisted coding, including a React/MUI component library.
- Created the corporate visual identity, designed and built the website, and narrated its marketing film.

AI Engineering and Product Consulting | LendingTech Systems

Oct 2025–Oct 2026 | Consulting

- Built Loan AI, a loan origination system with a lending-specific AI implementation designed around token-cost constraints.
- Developed every Loan AI application's front end using JavaScript, TypeScript, React, and MUI expertise alongside Claude and other AI development tools.

Front-End Designer and Developer | Independent Consultant

2011–Present

- Provide UX, interface development, and visual design for contract engagements.
- Build AI skills and agents; develop custom Stable Diffusion checkpoints and extensions. Use GPT, Claude, Grok, Midjourney, and Figma Make across design, coding, and image-generation workflows.

EARLIER EXPERIENCE

Front-End Developer | Triad Retail Media • Nov 2012–Mar 2013 | Contract

Built Walmart.com marketing experiences for L'Oréal, Hormel, Arm & Hammer, and other national brands.

Front-End Developer | Ellucian • Mar 2012–Nov 2012 | Contract

Designed and built responsive higher education websites using WordPress and a proprietary .NET CMS.

Front-End Developer | Numara Software / BMC • Oct 2011–Mar 2012 | Contract

Built web applications and marketing experiences with .NET, JavaScript, SQL, and HTML/CSS.

Interactive Designer | Bayshore Solutions • Mar 2009–Sep 2011

Designed and developed websites and applications using proprietary CMS platforms, Ektron, and Umbraco.

Senior Web Designer | LightPort • Feb 2007–Feb 2009

Designed financial services websites and applications with third-party investment tool integrations.

Head Graphic Designer | GunnAllen Financial • Jun 2004–Feb 2007

Led corporate web and graphic design, application maintenance, and brand standards in a regulated environment.

Web Designer | Advanced Access • Feb 2003–Jun 2004

Built real estate websites and MLS integrations in a proprietary CMS.

EDUCATION

University of Florida
